Xetra / SADE GY (C)

Key Facts
- A responsible investment tool for investors seeking to maintain a broad exposure to European equities while selecting best in class companies
- A customized index methodology based on MSCI research backed approach and fine-tuned by Amundi
- An ESG approach that combines a wide list of systematic sector exclusion with a rigorous selection of best in class companies in each sector
- A simple, transparent and cost-efficient solution to embrace Responsible investing

Investment Objective
AMUNDI MSCI EUROPE ESG LEADERS SELECT - UCITS ETF DR seeks to replicate, as closely as possible, the performance of the MSCI Europe ESG Leaders Select 5% Issuer Capped Index (Total return index). This ETF has exposure to large and mid-cap companies across 15 developed markets in Europe using a best-in-class approach by only selecting companies that have the highest MSCI ESG Ratings. In addition, companies showing involvement in alcohol, gambling, tobacco, thermal coal, nuclear power, conventional weapons, nuclear weapons, controversial weapons and civilian firearms are excluded from the Index and each constituent weight is capped at 5%.

¹ Ongoing charges - annual, all taxes included. For Amundi ETF funds, the ongoing charges correspond to the Total Expense Ratio. The ongoing charges represent the charges taken from the fund over a year. When the fund has not closed its accounts for the first time, the ongoing charges are estimated. It compares the annual total management and operating costs (all taxes included) charged to a fund against the value of that fund’s assets. Transaction cost and commissions may occur when trading ETFs.
